The Book

FOREWORD

This document is prepared in accordance with EU Regulation No. 1169 of 2011 and entered in force since December 13, 2014 in the area of food labeling, to guarantee the products served and protect the health of customers.

For the type of activity known as GASTRONOMY, the regulation requires the preparation and the presence in the company of the INGREDIENTS BOOK, a document that highlights in detail the menu in its entirety by going to frame the sales name of the product, the list of ingredients and the possible presence of allergens.

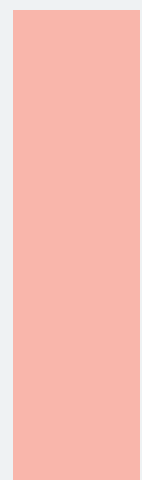

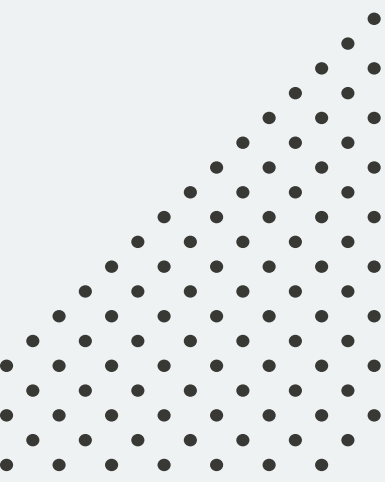

The company undertakes to comply with the provisions of Legislative Decree No. 231/ 2017 and what is stipulated in Article 8 of Regulation (EC) No. 1169/2011 paragraph 2 " The food business operator responsible for food information shall ensure the presence and accuracy of food information, in accordance with applicable food information law and the requirements of relevant national provisions."

According to Article 44 paragraph 2:

- "All information about the presence of substances or products causing allergies or intolerances shall be available by contacting the staff on duty."
- "For any information about substances and allergens, the appropriate documentation can be consulted, which will be provided, upon request, by the staff on duty."

This documentation will be maintained in the company so that it can be retrieved at any time for the competent authority, by the Employer (DDL), who will ensure that it is updated in the cases provided for in the current regulations.

All personnel have been made aware of and participated in the drafting and have taken cognizance and knowledge by simultaneous approval in writing.
